Ingolstadt, Germany

Training took more time through corona pandemic, but since the second year of the apprenticeship, the work activity has already changed to work as fully trained full stack developer in projects for corporate clients.

### WORK EXPERIENCE

Prosis GmbH Full stack developer  
August 2019 - September 2021 / Remote

I got trained as a full stack developer.  
My skills are JavaScript (ES6, Redux), HTML/XML, CSS, Java, SQL, Typescript, Building APIs, MySQL, Selenium, GraphQL.  
My primary frameworks for developing web development are: React, Vue, JSF, Spring, JPA / Hibernate and, as a database management system, Oracle or PostgreSQL and as non relational DB NoSQL.

**Self developing and educating in web developments as a freelancer (after my sabbatical)**  
since 10/2021

Self educating in web developing. Creating Websites with 3<sup>rd</sup> party software like Wordpress.

Independent training in front- and backend with online courses and private projects.

Working out private projects after requests from acquaintances or platforms like Fiver.

Including website development, database revision, administration of already existing projects.

### LANGUAGES
